Front of Car of W. A. St. Onge.

John Sullivan, aged 4, son of Sarah Sullivan, of Mechanic street, was fatally injured at 430 Thursday afternoon, when struck by an automobile driven by W. A. St. Onge, of Putnam. The child was playing on the sidewalk nearly opposite his home, one of a group of boys, when Mr. St. Onge drove down the street. As Mr. St. Onge approached the child danced out into the street. In endeavoring to avoid hitting him, Mr. St. Onge drove his car partly up an embankment on the side of the street but a fender of the car struck the child and knocked him down.

Mr. St. Onge took the child in his automobile to the office of Dr. G. M. Burroughs, and Dr. F. T. Tood was called in by Dr. Burroughs. Every effort was made by the physician to save the child's life, but without avail. An injury to the brain was the cause of death. The child's right leg was also broken.

Politicians Quiet—But Busy.

The town election this year is approaching without the accustomed political work storms, but, quietly, there is considerable work being done by the candidates to win the support of the voters.

Food Commissioner Robert Scoville of Hartford has requested a list of hotels and restaurants in the town and vicinity, that the proprietors of these establishments may have called to their attention certain plans for the conservation of food.

Interested in Next Call.

Danielson young men who are registered and subject to call for military service showed high interest on Thursday in the press announcements that another call for men is imminent, and that the date for ordering the call is tentatively fixed for October 1. in Texas—Philip Roberge Transferred

SOARS 10,000 FEET.

Herbert Smith Flying From Two to  
Five Hours a Day.

Herbert Smith, naval aviator, returned to Boston Thursday morning after a brief visit at his home in this city. Mr. Smith has the aviation game and is rapidly acquiring efficiency in his chosen branch of the service.

In training only a few weeks, he already knows what it is to look down upon the land and sea from a height of 10,000 feet and to experience the thrills that come to the student birdman. Mr. Smith says he flies from two to five hours a day, that the training course is strenuous but fascinating and that it's the life for him. He expected when he left here to be soon transferred from the station near Boston, where he has been training to another point on the Atlantic coast.

In the superior court Tuesday before Judge Joel H. Reed and a jury the trial of the case of Susan E. Brown vs. M. Eugene Lincoln, Willimantic parties, was commenced. FOUND IN TEXAS.

CHAS. P. BARRINGTON RETURNS

Eastford Young Man, Conscripted  
July 28th, Had Enlisted in Aviation  
Branch at San Francisco.

After having completed a loop around the United States, Charles P. Barrington, of Eastford, walked into the offices of the local exemption board Thursday afternoon, and made known that he had been notified at San Antonio, Texas, from the adjutant general's office at Washington, D. C., that he was to be reported to the local board for this district.

Barrington's is a strange experience and is indicative of the way in which the long arm of the law reaches out and plucks the boys of the selected service for the districts to which they are accredited. In this case the whole circumstance is such, however, as to win the sympathy of everyone who knows the details surrounding Barrington's predicament.

Barrington registered, June 4, at Eastford, and required an special act of congress, and soon thereafter had an opportunity for employment in the state of Washington. He accepted this, and before long was away did not make arrangements for the members of the local board to know his Pacific Coast address.

July 28 he was ordered by the local exemption board to report in Putnam for physical examination. He did not report, and in due course of time the local board certified him to the district board at Hartford as not having reported. The adjutant general's office at Washington and from there the search for Barrington began, successfully ending in Texas.

When Barrington arrived here on Thursday afternoon he had a surprising story to tell, and the evidence to back up his story.

OBITUARY.

Col. Frank B. McCoy.

Boston, Sept. 27.—Colonel Frank B. McCoy, Sept. 27, died suddenly of heart trouble today. He was 65 years of age and was a native of Georgia. He retired from the army with the rank of colonel in August, 1915, but soon after he returned to active service, taking command of the national guard regiments of the First Brigade in the eastern department, making his headquarters at Albany. He came here to assume charge of recruiting a year ago.

an officer's commission and a salary of about \$2,000 a year.

The unfortunate thing about Barrington's case is that he had no intention of evading military service, this being clearly shown by the facts in the case.

The next step in his military experience will be going out of here next Thursday with this district's second contingent of men for Camp Devens.

It is believed that when he makes the fact of his military service known to the British army from the beginning all officers at Camp Devens, they will use their efforts to bring about his transfer to the aviation corps of the army and that eventually he will get back to the flying service. Barrington is, of course, much disappointed over his unusual experience, but is as strong as ever in his desire to fight for Uncle Sam.

LOSS OF GERMAN LIFE  
HAS BEEN TERRIFIC

Attacked in Masses in Recent Battles  
in Flanders.

London, Sept. 27.—On his return from a visit to the Italian front Major General F. E. Macdonald, chief director of military operations at the war office, today discussed the situation in Flanders with the Associated Press.

"During the past month there has been a long pause, thanks to rain and mud in Flanders," he said. "The pause made necessary more ample preparations than ordinarily after a first advance—preparations equivalent to launching an entirely new battle. But the result amply justified the preparations, and what on previous occasions we won our objectives only after protracted fighting, we yesterday were in possession of the whole of our objectives before 3 a. m."

"The fighting yesterday was in the most vital area, the nexus of the ridge system dominating the plain of Flanders, and the key to the whole series of ridges. There is a good deal more to be said about this battle than we gained."

"Officers who have been with the British army from the beginning all agree that since the first battle of Ypres there has never been a slaughter of the Germans comparable to that which they suffered in the repeated counter-attacks of the past few days. The Germans counter-attacks in masses and dozens of these counter-attacks were swept away by our fire with terrible German losses."

POSTPONEMENT OF "ALIEN  
SLACKER" LEGISLATION

In Response to Request Made by Sec-  
retary Lansing.

Washington, Sept. 27.—Objections to enactment of any alien slacker legislation at present, voiced by Secretary Lansing yesterday before the house military affairs committee, resulted today in a committee vote to postpone action indefinitely.

Chairman Dent later said that the secretary's statement that the state department was negotiating with other countries to effect a result equivalent to enactment of "alien slackers" legislation, was largely responsible for the vote. These negotiations will be completed, the secretary said, before a second draft call is issued.

SOLDIERS AND SAILORS

CIVIL RIGHTS BILL

Has Been Completed by the House  
Judiciary Committee.

Washington, Sept. 27.—The soldiers and sailors civil rights bill was virtually completed by the house judiciary committee today and will be re-

introduced as a committee bill tomorrow by Chairman Webb. As agreed upon, the measure provides for federal guarantee against loss by insurance companies through failure of men with the colors to pay premiums on policies.

While doubt has been raised in the senate judiciary committee, which also is considering the bill, as to the measure's constitutionality, Chairman Webb and house committee members contend that it is constitutional and should be pressed for passage at this session.

1,000,000 CHINESE MADE  
HOMELESS BY A FLOOD

The City of Tien Tsin is Threatened  
With Destruction.

Peking, Tuesday, Sept. 25.—(Delayed.) The city of Tien Tsin is threatened with destruction by flood. The Chinese city and portions of all the foreign concessions are under water, which is rising rapidly and which covers the great plain to the southeast of Peking. It is estimated that 1,000,000 Chinese are homeless.

The railway embankment between Tien-Tsin and Nanking has been cut to permit the escape of the water. The Hsiao-Ho overflow has spread to the northward and has broken the grand canal at many places.

The mud walls protecting Tien-Tsin are being strengthened under foreign supervision, but all the streams in Chi-Li province are feeding the flood seeking the sea, making the situation desperate.

SUCCESSFUL TESTS OF  
AIRPLANE AMBULANCE

Invented by Dr. Chassaing of the  
French Sanitary Service.

Paris, Sept. 27.—The airplane ambulance that has been tried out successfully in recent tests is the invention of Dr. Chassaing of the French military sanitary service, who represented a wounded passenger during the initial trials, occupying one of the two stretchers that are placed in the tail box of the machine behind the pilot. A successful test of the machine yesterday at one of the French airbases was witnessed by Justin Godard, under-secretary of war.

It is proposed to place the Red Cross conspicuously on the side of the machine and adopt the role of flying nurse, rather than 200 yards, so that the enemy will be able easily to perceive the Red Cross.

CHARGED WITH VIOLATING  
THE "WHITE SLAVE" ACT  
Captain Max St. Thierichens Placed  
on Trial in Philadelphia.

Philadelphia, Sept. 27.—Captain Max St. Thierichens, former commander of the German sea raider Prinz Eitel Friedrich, was placed on trial in the federal district court today, charged with violating the Mann act by bringing a woman from Lithuania, N. Y., to Philadelphia for improper purposes. Counsel vainly sought to have the trial deferred until after the war on the ground that Thierichens could not get a fair trial.

LEMONS BRING OUT  
THE HIDDEN BEAUTY

Make this lotion for very little  
cost and just see  
for yourself.

What girl or woman hasn't heard of lemon juice to remove complexion blemishes? To make the New and the hidden beauty? But lemon juice alone is not enough. It is irritating, and should be mixed with orchard white in this way. Strain through a fine cloth the juice of two lemons into a bottle, containing about three ounces of orchard white; then shake well and you have a whole quarter pint of skin and complexion lotion at about the cost of one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle, then this lotion will remain pure and fresh for months. When applied daily to the face, neck, arms and hands it should help to bleach, clear, smooth and beautify the skin.

Any drugist will supply three ounces of orchard white at very little cost and the grocer has the lemons.
